

LEANPAC

Power & Busbar Solutions

在整个产品生命周期，BangTeng从一开始就为客户优化和提供可制造的产品设计方案

BangTeng Engineers partner with customer engineering teams throughout the product lifecycle to provide the optimal design for Manufacturability:

10年+ 经验 Experience

- 产品研发 Product R&D
- 丰富的产品知识 Extensive product knowledge
- 材料专研 Materials expertise

10+ 技术工程人员 Engineering Team

- 3+ 模具设计师 mould designer
- 2+ 工艺工程师 process technical engineer
- 1+ 产品研发人员 R&D
- 4+ 模具工程师 mould manufacturer engineer

邦腾人一直在学习进步，致力成为能解决客户产品不同需求的五金加工厂商

Bangteng have ben learning and making progres, we are strive to become a hardware processing manufacturer that can meet the different needs of customer's products,

冲床
Stamping

激光切割
Laser Cutting

激光焊接机
Laser Welding Machine

冲压设备 STAMPING MACHINE

多台双轴冲床、钢板冲床、龙门冲床，不同吨位精密高速冲压机，共20台
Multiple dual axis punches, steel plate punches, gantry punches, and precision high-speed stamping machines of different tonnage, total 20sets

裁切设备 CUTTING MACHINE

激光切割4台，裁切机3台 laser cutting machine 4sets, strip cutting machine 3sets

高分子扩散焊机
Polymer welding machine

折弯机
bending machine

压铆机
riveting machine

焊接设备 WELDING MACHINE

激光焊接机4台，高分子焊接机4台 laser welding machine 4sets, polymer diffusion welding machine 4sets

模具加工设备 MOULD PROCESS MACHINE

磨床4台，钻床2台，铣床5台 grind machine 4sets, drilling machine 2sets, milling machine 5sets,

裁切机
Cutting machine

套管收缩机
Tube shrinkage machine

攻牙机
Dental tapping machine

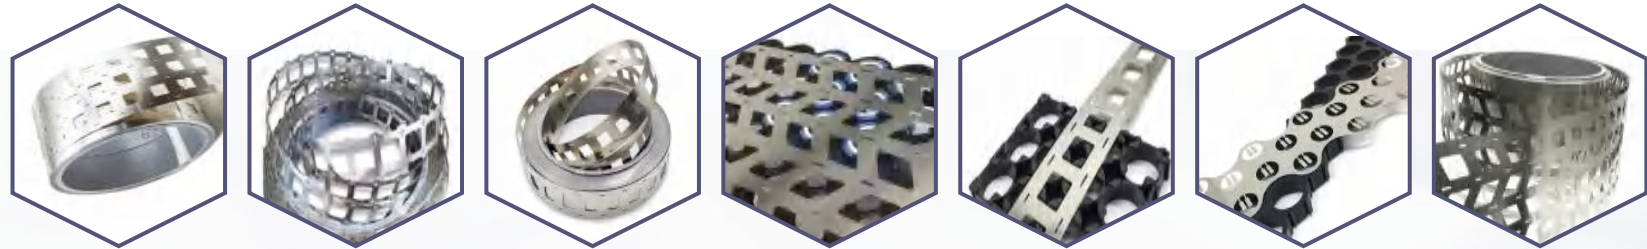

其他加工设备 OTHER PROCESS MACHINE

压铆机，折弯机，攻牙机，套管收缩机，组装机，手啤机，清洗机，抛光机，研磨机 machine for riveting ,bending, screwing, tube shrink, automatic mounting , hand-punch, cleaning ,polish, grind,

加工设备配备齐全，并拥有独立的模具开发、研发部门。加工工艺可做冲压光切割，CNC，焊接，折弯，压铆，攻牙，编带，覆膜等，可来图来样定制，无起订量，可快速打样。Complement process machine for customer's OEM product. We also have independent department for mould design and production . Available for stamping, cutting, cnc, welding, screw /nut rivet, bend, strip cutting, tube shrink machine, screw drill, tapping and film covering, etc, accept OEM with drawing or sample, without MOQ with fast sample delivery.
